Head Office: Unit 1, Unwins Farms, Cottenham Road, Histon, Cambridge CB4 9ES

Fresh flowers look great in reception areas and board rooms don't they?

But there is a down side!

They need changing every week, the petals drop and of course there's the cost.

Now there's an alternative that looks as fresh and individual, but costs a fraction of the price and we do all the hard work changing the displays and ensuring all the hassle is taken away!

Feature Flowers is a new service from Flora-Tec, national leaders in the provision of interior and exterior plant management and maintenance.

Our staff will deliver and install a different display each month, direct to your reception or meeting room area and all from as little as £30 per month.

With a wide range of designs and displays to choose from, all made from a combination of fresh plants and sculptural accessories in a variety of stylish pots and containers, there's always something different to choose from and no hassle.
